

program, which provides funding to help fight violent and drug-related crime, including support to multi-jurisdictional drug task forces, drug courts, drug education and prevention programs, and many other efforts to reduce drug abuse and prosecute drug offenders. I know how important these programs have been to Wisconsin law enforcement efforts, in particular with regard to fighting the spread of methamphetamines.

Unfortunately, not everyone sees it that way. Once again this year, the administration's budget proposal would have drastically cut the COPS Program, and would have eliminated all funding for the Byrne grant program. I have already supported efforts to restore this funding through the budget process, and am proud to continue to fight in the appropriations process to make sure that state and local law enforcement receive the Federal grants that they need and deserve. We should be doing more, not less, to support our local law enforcement. In particular, I was proud to support Senator BIDEN's amendment that provided additional COPS funds for the hiring of local police officers, an aspect of the COPS Program that has been dramatically cut back. The amendment also would have provided \$19 million to help find children displaced by Katrina and reunite them with their families, and to support victims of domestic violence and sexual assault affected by Katrina. I regret the Senate's decision to reject this amendment.

On the other hand, I am pleased that an amendment offered by Senators DAYTON and CHAMBLISS to increase Byrne/local law enforcement block grant funding by \$275 million was accepted. This amendment, which I cosponsored, restores funding for these important programs to fiscal year 2003 levels, and I hope it will be retained in conference.

While I strongly support the efforts of Senator STABENOW to address the need for first responders to have interoperable communications capabilities, I could not support her amendment. My colleague from Michigan rightly notes that making sure that all of our first responders can communicate with each other must be a priority for our Nation, and I admire her efforts to advance this cause. However, 4 years after September 11 tragically highlighted this vitally important issue, we still do not have unified national interoperable communications standards. Without these standards, there is no guarantee that a new \$5 billion grant program for equipment would create the interoperable communication system we need and that our first responders and communities deserve. When spending such massive amounts of money and such a large percentage of all first responder funding on this new program, we must make sure that we are spending the money wisely. Without standards we cannot meet this test and that is why I regretfully voted against this amendment.

I am disappointed that the Senate did not adopt the amendment I cosponsored offered by Senator CLINTON that would have created a commission to investigate and identify the problems with the governmental response to Katrina. Hurricane Katrina and its aftermath devastated the gulf region and exposed serious flaws in our Nation's response capabilities. While the crisis prompted untold acts of heroism and compassion that continue to this day, it also revealed gaping holes in the Government's reaction and ability to stop, reduce, or mitigate the effects of this terrible disaster.

We need answers. We need answers about what went right, what went wrong, and what we can do to make sure our response is better to future disasters. We need a serious inquiry unimpeded by political considerations or posturing, and I believe an independent commission is the right way to do that. Our Nation and this Senate have been willing to spend tens of billions of dollars in the last 4 years to address our disaster response capabilities. Hurricane Katrina showed that those capabilities still can't provide Americans with the protection and safety they deserve. We need the serious rethinking and reassessment a Katrina commission could provide so that we can effectively address our nation's critical response needs. That is why I hope the Senate will soon reconsider establishing such a commission.

In closing, I want to note my disappointment that the bill fails to address problems with media concentration. I have long been concerned about concentration and vertical integration in the radio industry, which was one of the reasons I opposed the Telecommunications Act of 1996 that relaxed many ownership restrictions. I feel that consolidation has the strong potential for limiting creativity, localism and diversity on our airwaves. In 1998, twice in 2001 and again in September 2002, the Federal Communications Commission, FCC, published reports on the changes in the radio industry as a result of the 1996 act. These reports showed significant consolidation nationally and in local markets. For example in 1996, the largest radio group owned less than 65 stations; by 2002 the largest radio group had more than 1,200 stations.

I proposed a modest amendment to require the FCC to update and provide Congress with a report on consolidation in the radio industry that the FCC last produced 3 years ago. I was disappointed that I was denied even the opportunity to get a vote on my amendment. As New York Attorney General Eliot Spitzer's recent payola settlement shows, there continue to be problems with the radio industry and therefore there is a need for updated information about the state of the industry so that Congress can decide how to address these problems.

**THE PRESIDING OFFICER.** The Senator from Utah.

**MR. BENNETT.** Mr. President, I ask unanimous consent that all after the enacting clause be stricken; that the text of H.R. 2744, Calendar No. 141, the Senate committee-reported bill, be inserted in lieu thereof, considered as original text for the purpose of further amendments, and that no points of order be waived by reason of this agreement.

**THE PRESIDING OFFICER.** That order has been entered.

**MR. BENNETT.** Mr. President, I am pleased to bring before the Senate for myself and the ranking member of the subcommittee, Senator KOHL, the fiscal year 2006 appropriations bill for Agriculture, Rural Development and related agencies. This bill contains the funding for the Department of Agriculture, the Food and Drug Administration, and the Commodity Futures Trading Commission. It also sets a limitation on the funding for the Farm Credit Administration, although no appropriated funds are provided for that agency.

The bill is at our 302(B) budget authority allocation of \$17.348 billion, and it is within our outlay allocation of \$18.816 billion. It is the product of more than 7 months’ examination of the administration’s budget proposal and

many requests from Senators and other stakeholders. It was approved unanimously by the subcommittee and the full committee and is the product of a completely bipartisan effort with contributions from Senators on both sides of the aisle.

Since I have been the chairman of this subcommittee, I have had the pleasure of working with Senator KOHL and his excellent staff and have learned a great deal from that experience. For the record, I thank them for the excellent and professional way in which they have helped us craft this bill. This is truly a bipartisan effort. There has been a minimum of difficulty and bickering. This is a tribute to Senator KOHL and the staff he has assembled on his side, as well as the staff that made themselves available to me. I express my gratitude to him and to all of the staffers involved; also, the members of the subcommittee and the full committee who have cooperated with us in producing the unanimous report at both levels.

We commonly refer to this as simply the "Ag appropriations bill," but it has a much wider impact on American citizens than just agriculture. The largest portion of the funding in this bill, whether discretionary or mandatory, goes to nutrition and feeding programs for mothers and children both in low-income groups and in senior citizens. We often think of the Agriculture appropriations bill entirely in terms of farmers, so I wish to make the point that this bill funds the feeding and nutrition program for those I have described.

It is also a consumer protection bill for food, drugs, and medical devices. It is an export promotion bill for our farmers and food manufacturers. It is a conservation and natural resources bill, and it is a bill to promote the economic development of rural America.

The budget authority allocation is \$516 million more than last year's level, which sounds good if one is looking for more spending. Last year, we had a \$406 million one-time saving that is not available this year. So when one nets those two numbers out, this bill is virtually identical to the previous allocation.

Also, we should note that the administration budget proposes \$177 million in user fees contingent on authorization, which was sent to the authorizing committee only 3 weeks ago and has not been considered. So those user fees also reduce the total amount of the bill. That is why I say in general terms, this bill is level funding of the previous year.

I should point out that the previous year was below the year before that. So at least as far as this subcommittee of the Appropriations Committee is concerned, we are not expanding the Federal budget or adding to the deficit by increasing every year. We are either going down or, at best, holding steady.

We do thank Chairman COCHRAN for the allocation that gives us the \$516

million more than that I talked about. Because of the other factors I have described, it is absolutely essential to keep us effectively holding steady.

At this time when we are concerned about homeland security, I will outline the homeland security increases that are in this bill. There is \$10 million for the National Agricultural Pest Information Systems; provides \$166.5 million for food defense activities at FDA. This is an increase of \$16.6 million over fiscal year 2005. In addition, the committee continues to fund FDA counterterrorism activities related to medical product countermeasures at \$57.2 million.

We provide \$13 million for the Food Emergency Response Network in USDA and FDA to integrate the Nation's food testing laboratories for the detection of threat agents in food at the local, State, and Federal levels. We fund the completion of the National Animal Disease Center. Those are the increases in the funding levels for terrorism.

Food safety, we have an increase of \$36.2 million, and this includes full funding for food inspection, BSE surveillance—BSE is the more appropriate name for what the press calls mad cow disease—as well as humane slaughter. As far as animal health programs are concerned, we provide full funding for BSE surveillance and an increase for the detection of low pathogenic avian influenza.

In the area of the research and education program, there is \$1.167 billion to support research, education, and extension activities at America's land grant colleges and universities. We have learned that is the backbone of research in agriculture, and that is why we continue to fund that particular area. We also fund 1890 institutions—those are the historically Black land grant colleges—as well as tribal colleges and schools of forestry.

There is approximately \$1.1 billion for the Agricultural Research Service, adding money for research in animal diseases, human nutrition, and food safety. Then there is \$59 million to complete funding for the National Animal Disease Center located in Ames, IA. This is a project that we have been involved in for some years, and with this appropriation it will finally be completed.

For the farm assistance programs, there is \$3.7 billion for farm loans; conservation programs, \$963 million for conservation and watershed activities; and in the area of rural development, we have \$454 million for water and waste water grants; \$5 billion for low-income housing; over \$1 billion in loans and grants for small rural businesses; \$6.2 billion for rural electrification and telecommunications loans; and \$550 million for broadband loans.

In the area of domestic food programs, WIC funding, Women and Infant Children, \$5.257 billion; and for food stamps, \$40.7 billion. These are very large numbers. This is the area I spoke of earlier where the bulk of the appro-

priations go, and for those who are concerned about these areas of nutrition for people in need, both funding levels provided will meet the expected caseload.

Foreign assistance, we have \$147.868 million; PL-480 title II funds, \$1.150 billion; and the McGovern-Dole program, \$100 million.

Now let us turn for just a moment to the Food and Drug Administration: FDA, \$1.841 billion; the medical device review is getting \$7.8 million above fiscal year 2005; counterterrorism food safety, \$16.6 million above fiscal year 2005; and drug safety, \$5 million above fiscal year 2005.

With respect to the limitations on mandatory programs where we have looked for savings, we have two goals: one, to do no serious harm and, No. 2, in whatever limitations are there, that they be fair. We believe we have met both of those goals.

This was the work of the subcommittee and the full committee in the normal course of events, and then, of course, Katrina came along. So I think it is appropriate that we make some comments about what may or may not be in this bill with respect to the hurricane disaster in the southern part of the United States.

This bill does not have provisions directly tied to that disaster, having been written before the disaster came along, but it does provide much of the resources USDA will need to help the victims of that disaster, resources that were built into the normal course of events. There is money for food stamps, WIC, and food safety, as I have described. There is conservation recovery and rural housing, as I have described. Many of the people who were hurt, particularly I believe in Mississippi, are going to be facing rural housing challenges. USDA can continue its very commendable efforts to assist those in need with the existing authorities as it has with the funds provided in this bill.

The States affected by Hurricane Katrina are all major beneficiaries of these programs. For that reason, I urge my colleagues to help us get this bill passed by the Senate as soon as possible. We should not deal with all of Katrina with supplemental funds when there are funds in the pipeline in the normal fashion that can be of assistance.

We have had a number of requests from Senators on both sides of the aisle regarding matters that came up after this bill was passed by the Appropriations Committee back in June. I and my staff and Senator KOHL and his staff are working on a managers' amendment to address these requests, and I will be offering that amendment later during the consideration of this bill.

I appreciate the attention of the Senate to this outline of where we are.

AMENDMENT NO. 1726

I send an amendment to the desk on behalf of myself and Senator KOHL.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Utah [Mr. BENNETT], for himself and Mr. KOHL, proposes an amendment numbered 1726.

Mr. BENNETT. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 154, line 20, after "Iowa," insert the following:

"the Steeple Run and West Branch DuPage River Watershed projects in DuPage County, Illinois,"

On page 167, line 22, strike "(a)" through and including "required fee." on page 170, line 11, and insert the following:

"The Rural Electrification Act of 1936 is amended by inserting after section 315 (7 U.S.C. 940e) the following:

**"SEC. 316. EXTENSION OF PERIOD OF EXISTING GUARANTEE.**

"(a) IN GENERAL.—Subject to the limitations in this section and the provisions of the Federal Credit Reform Act of 1990, as amended, a borrower of a loan made by the Federal Financing Bank and guaranteed under this Act may request an extension of the final maturity of the outstanding principal balance of such loan or any loan advance thereunder. If the Secretary and the Federal Financing Bank approve such an extension, then the period of the existing guarantee shall also be considered extended.

**"(b) LIMITATIONS.—**

"(1) FEASIBILITY AND SECURITY.—Extensions under this section shall not be made unless the Secretary first finds and certifies that, after giving effect to the extension, in his judgment the security for all loans to the borrower made or guaranteed under this Act is reasonably adequate and that all such loans will be repaid within the time agreed.

"(2) EXTENSION OF USEFUL LIFE OF COLLATERAL.—Extensions under this section shall not be granted unless the borrower first submits with its request either—

"(A) evidence satisfactory to the Secretary that a Federal or State agency with jurisdiction and expertise has made an official determination, such as through a licensing proceeding, extending the useful life of a generating plant or transmission line pledged as collateral to or beyond the new final maturity date being requested by the borrower, or

"(B) a certificate from an independent licensed engineer concluding, on the basis of a thorough engineering analysis satisfactory to the Secretary, that the useful life of the generating plant or transmission line pledged as collateral extends to or beyond the new final maturity date being requested by the borrower.

"(3) AMOUNT ELIGIBLE FOR EXTENSION.—Extensions under this section shall not be granted if the principal balance extended exceeds the appraised value of the generating plant or transmission line referred to in subsection paragraph (2).

"(4) PERIOD OF EXTENSION.—Extensions under this section shall in no case result in a final maturity greater than 55 years from the time of original disbursement and shall in no case result in a final maturity greater than the useful life of the plant.

"(5) NUMBER OF EXTENSIONS.—Extensions under this section shall not be granted more than once per loan advance.

**"(c) FEES.—**

"(1) IN GENERAL.—A borrower that receives an extension under this section shall pay a fee to the Secretary which shall be credited

to the Rural Electrification and Telecommunications Loans Program account. Such fees shall remain available without fiscal year limitation to pay the modification costs for extensions.

"(2) AMOUNT.—The amount of the fee paid shall be equal to the modification cost, calculated in accordance with section 502 of the Federal Credit Reform Act of 1990, as amended, of such extension.

"(3) PAYMENT.—The borrower shall pay the fee required under this section at the time the existing guarantee is extended by making a payment in the amount of the required fee."

Mr. BENNETT. I am happy to yield to my ranking member, good friend, and full partner, Senator KOHL.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. KOHL. Mr. President, I rise today in support of the fiscal year 2006 appropriations bill for Agriculture, Rural Development, and Related Agencies. This year, the Agriculture Subcommittee received a budget allocation of \$17.3 billion, the first budget increase in several years. Along with our increased allocation, however, came increased spending requirements and critical priorities that, in the end, left us with essentially the same funding level as last year. Thanks in no small part to the hard work of Senator BENNETT and his staff, I believe we have put together a bill that all Senators should be able to support without hesitation.

Before I discuss the bill at hand, however, I believe we would be remiss to not express our deepest sympathies to all of those affected by Hurricane Katrina. It seems almost unfair to plan for a year ahead, knowing there are people still trying to figure out their next hours and days. We are aware that so much remains to be done to help these people, and while we do not include funding for specific items related to that disaster in this bill, we are working with USDA to ensure that immediate help in the form of food and housing is being provided, and will work to make sure that when a disaster supplemental is passed, all possible help that can be provided by the USDA and FDA will most certainly be included.

In the bill at hand, however, here are a few of the highlights.

With the recent discovery—the first of its kinds—of BSE resulting from a cow born in the United States, it is important to note that this bill fully funds the President's request for all mad cow disease prevention and detection activities within the Animal and Plant Health Inspection Service, the Food Safety and Inspection Service, and the Food and Drug Administration. This will allow USDA and FDA to continue enhanced inspections of cattle, and to work to ensure the continued prevention of BSE in this country.

Not to diminish the other important work of keeping our food and drug supply safe done by those agencies, I would like to point out that the Food Safety and Inspection Service received an increase of nearly \$20 million above

last year's level, which will provide for 7,690 food safety inspectors. The Food and Drug Administration received an increase of nearly \$35 million, including nearly \$17 million for counterterrorism activities, nearly \$8 million for increased medical device review, and \$5 million for increased drug safety activities.

The importance of the conservation and watershed programs cannot be overstated, especially in light of recent events. This bill provides \$963 million for the Natural Resources Conservation Service; \$820 million for conservation operations, \$5 million for watershed surveys and planning; \$60 million for watershed and flood prevention programs; \$27 million for the watershed rehabilitation program, and \$51 million for resource conservation and development.

In rural development, the bill provides adequate funding for programs to meet priority needs for rural communities including business development, water and waste assistance, affordable rural housing, electric, telephone and broadband connections, and essential community facilities. The bill also provides a safety net to preserve rural multi-family housing and prevent low-income rural residents from being displaced from Government financed rental housing projects due to recent market and legal developments.

For the WIC Program, the bill provides \$5.25 billion, an increase of nearly \$22 million from last year's level. Although this amount is less than what the administration originally requested, changes in participation and food cost estimates allowed these savings, and the amount provided ensures full access to this program using the most up-to-date estimates. This funding level is supported by the administration, as well as noted hunger advocacy groups, all of whom have worked with the committee in determining the proper and adequate WIC funding level. This amount includes a contingency reserve of \$125 million, \$20 million for improved computer systems, and \$15 million for breastfeeding support activities. Further, we did not include the President's proposals to limit Medicaid eligibility restrictions, nor lower the cap on nutrition services administrative funding. All other nutrition programs were funded at or above the President's request level, including \$40.7 billion for food stamps, \$12.4 billion for child nutrition programs, nearly \$109 million for the Commodity Supplemental Food Program, and \$140,000,000 for The Emergency Food Assistance Program.

This bill also does not neglect our responsibilities to help other countries. The Foreign Agricultural Service received an increase of \$11 million this year. The PL-480 program, which supplies U.S. commodities to fight hunger in other countries, is funded at \$1.15 billion, and the committee did not accept the administration's proposal to shift some of these funds to USAID.

The McGovern-Dole program, which provides food for impoverished schoolchildren in other countries, receives \$100 million.

Overall, as I have previously stated, we were able to do everything that everyone wanted us to do. However, I think that Senator BENNETT has done a good job in making sure that this bill addresses the most important needs that we have. I would like to thank him again, as well as Jon Ziolkowski, Fitz Elder, Hunter Moorhead, Dianne Preece, and Stacy McBride on his staff for their hard work and dedication. They exhibited professionalism and a strong work ethic throughout this entire process, and worked seamlessly with my staff, for which I am also thankful.

I strongly support this bill, and I encourage all Senators to vote in favor of it.

I look forward to debating and passing this bill on the Senate floor and moving one step further toward providing USDA and FDA funds for fiscal year 2006 in the regular order. I encourage all Senators with amendments to this bill to file them early and to work with Senator BENNETT and myself and our staffs to deal with any and all amendments that come up.

I yield the floor.

Mr. BENNETT. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BENNETT. Mr. President, I ask further proceedings under the quorum call be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### MORNING BUSINESS

Mr. BENNETT. I ask unanimous consent the Senate now proceed to a period for morning business with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Delaware.

#### OUR CONSTITUTION

Mr. CARPER. Mr. President, I rise to talk about the importance of our Constitution. In Delaware, we are reminded of that every year, at least once a year, on December 7, because that is Delaware Day. In Delaware, we celebrate on December 7, the day in 1787 when Delaware became the first State to ratify the Constitution. For one whole week, Delaware was the entire United States of America. After a week or so, we opened it up and let other States in, including South Carolina. For the most part, we have been pleased with the way things turned out.

This year, Constitution Day is going to be commemorated not just in Delaware on December 7 but across the

country on September 17. That will be Saturday. That is actually the day the Constitution was apparently signed back in 1787, up in Philadelphia.

If you visit the Senate today and all this week and you come into one of the galleries, if you walk in, they will give you a copy of the Constitution. Today I was bringing in some visitors, from Dover, DE, and I was given a copy of the Constitution with the amendments thereto. I was reminded that this commemoration of our Constitution for this Saturday was made possible by one of our colleagues in the Senate, ROBERT BYRD, who carries with him every day a copy of the Constitution a little bit smaller than this one. You have probably seen it, Mr. President. He pulls it out every now and then and waves it in our faces to remind us what it is all about. It is because of his love, really devotion, to the Constitution that we will be having a special commemoration on Saturday. I thank Senator BYRD for doing that.

I am a Delawarean who treasures what our Constitution does. It is the basic law of our land, the law on which all the other laws are built. The Constitution which is becoming the longest lived Constitution in the history of the world and the Constitution most replicated by every nation on Earth is the one we celebrate this Saturday.

I wish to take a couple of moments to share and remind us again how the Constitution is introduced. It starts off—many of us know these words. In fact, many of us as schoolchildren, and our children as well, had to learn the preamble to the Constitution, which reads as follows:

We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

"We the people," those three words encapsulate the very essence of what makes America so wonderful. By presenting a united front, our Founding Fathers told the world that they stood together when creating this great country. I believe we need to recapture their spirit of reconciliation and to focus our energies on healing the rift that has developed in our current political climate, a rift that goes back to the beginning of this administration, the previous administration, and, frankly, for some time before that.

We have seen how powerful America can be when all of our citizens unite to focus on a common goal. During this upcoming weekend, Saturday, September 17, I urge all Americans—not just my children who are in high school; not just other schoolchildren, but I urge all Americans from all walks of life to pause and contemplate principles that form the cornerstone of this great democracy of ours. By understanding our past, I believe we can navigate toward a better future and

truly honor the philosophy and spirit of our Founding Fathers.

The first 10 amendments to the Constitution are called the Bill of Rights. They lay out some of the liberties that we take for granted, but people in other places around the world would love to have these liberties. They do not and maybe they never will. I hope they will.

But our Constitution has, among other liberties, the freedom to bear arms. It has the right to say what is on our mind. In fact, there are newspapers, television stations, our radio stations—all of us enjoy freedom of speech. People can vote for whomever they want. If they like the job we are doing, they can reelect us; if they don't, they can throw us out and put somebody else in these seats. They can run for the job themselves.

They have a right to a jury by their peers. They have a right to be protected from unlawful searches without an order of a judge. There are all kinds of protections in our Constitution.

There is one given a little attention here lately, given a decision by a district court judge out in California. The question it raises is in the press of late, in the last 24 or 48 hours—again, I might add—the question of whether or not the Pledge of Allegiance to our flag, where we say "one nation under God," is indeed constitutional.

I would have us go back to the beginning of our Nation's history, when we were born as a nation. I would have us remember, when the first President, George Washington, was sworn into office and they finished the ceremony—I think it was in New York City—they didn't break up and go off to a bunch of inaugural balls. As I recall, they went to church.

Several years before that when they were up in Philadelphia and were trying to hammer out the Constitution itself, whenever they got into an especially difficult place, they would sometimes call a halt to what they were doing and pray about it. They actually began a lot of their sessions with prayers, much as we begin our session in the Senate and over at the House of Representatives.

The folks who gathered up in Philadelphia all those years ago did not want to have a State religion. They didn't want to have a "Church of America." They didn't want to have our version of the Church of England. They wrote that in the Constitution, literally in the first amendment. This is the way the first amendment starts:

Congress shall make no law respecting an establishment of religion.

If we go over the copy of the Constitution that we shared with the folks coming into the Senate today as visitors, we read the language alongside the raw language of the amendment and it says these words:

The first amendment protects religious freedom by prohibiting the establishment of an official or exclusive church or sect.

I am not a lawyer, certainly not a constitutional lawyer. But I think I
